Problem 4:

For Problem 1:

For Problem 2:

The screenshot shows a web browser window with the address bar displaying `validator.w3.org/nu/#file`. The page title is "Showing results for index.html - 1 x". The browser's taskbar at the bottom shows the Windows Start button, a search bar, and several application icons. The website content includes a blue header "Nu Html Checker", a sub-header "Showing results for index.html", and a "Checker Input" section with options for "Show" (source, outline, image report) and "Check by" (file upload, Choose File). A green message bar states "Document checking completed. No errors or warnings to show." Below this, it says "Used the HTML parser. Total execution time 6 milliseconds." At the bottom, there are links for "About this checker" and "Report an issue", and the version "20.11.1".

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for index.html

Checker Input

Show ☐ source ☐ outline ☐ image report [Options...](#)

Check by [file upload](#) [Choose File](#) No file chosen

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

[Check](#)

Document checking completed. No errors or warnings to show.

Used the HTML parser.
Total execution time 6 milliseconds.

For Problem 3:

This screenshot is similar to the one for Problem 2, but the browser's address bar now shows `https://validator.w3.org/nu/about.html#issues`. The website content is identical, but the green message bar now reports "Total execution time 11 milliseconds." The taskbar at the bottom shows the same Windows interface.
